Supplement Facts

Serving Size 4 Capsules

Servings Per Container 30

	Amount Per Serving	% Daily Value
Vitamin A (33% (2000 IU) from retinyl palmitate, 50% (3000 IU) from beta-carotene, and 17% (1000 IU) from mixed carotenoids)	6000 IU	120%
Vitamin C (as ascorbic acid)	400 mg	667%
Vitamin D (as cholecalciferol)	400 IU	100%
Vitamin E (from d-alpha tocopheryl succinate and mixed tocopherols)	200 IU	667%
Thiamin (vitamin B1 from thiamine hydrochloride)	9 mg	600%
Riboflavin (vitamin B2)	10 mg	588%
Niacin (from niacinamide)	20 mg	100%
Vitamin B6 (from pyridoxine hydrochloride)	20 mg	1000%
Folic Acid	400 mcg	100%
Vitamin B12 (as cyanocobalamin)	20 mcg	333%
Biotin	200 mcg	67%
Pantothenic Acid (from calcium pantothenate)	25 mg	250%
Calcium (98% from calcium carbonate and 2% from calcium pantothenate)	100 mg	10%
Iodine (from potassium iodide)	150 mcg	100%
Magnesium (from magnesium oxide)	100 mg	25%
Zinc (from zinc monomethionine)	40 mg	267%
Selenium (50% from selenomethionine and 50% from sodium selenate)	100 mcg	143%
Copper (from copper sebacate)	2.5 mg	125%
Manganese (from manganese amino acid chelate)	5 mg	250%
Chromium (from chromium polynicotinate)	100 mcg	83%
Molybdenum (from molybdenum aspartate)	75 mcg	100%
Betaine Oxyneurine	200 mg	†
Taurine	200 mg	†
Lemon Bioflavonoids (50% hesperidin complex)	175 mg	†
Acetylcysteine (N-acetyl-L-cysteine) (NAC)	150 mg	†
Rutin	50 mg	†
Ginkgo Leaf Extract (24% ginkgo flavone glycosides)	40 mg	†
Bilberry Fruit Extract (25% anthocyanidins)	30 mg	†
Grape (<i>Vitis vinifera</i>) Seed Extract (95% proanthocyanidins)	30 mg	†
Lipoic Acid	20 mg	†
Choline (from choline bitartrate)	10 mg	†
Boron (from protein hydrolysate)	2 mg	†
Vanadium (from vanadium amino acid chelate)	224 mcg	†
Carotenoids Proprietary Blend (alpha-carotene, gamma-carotene, and cryptoxanthin)	22.4 mcg	†
Lutein (Flora GLO®)	6 mg	†
Zeaxanthin	254 mcg	†
Lycopene	600 mcg	†

† Daily Value not established.

Other Ingredients: Gelatin, Rice Flour, Silica, and Water.

About OcularProtect

- Supports visual and full body health
- Based on the latest scientific research
- Formulated by ophthalmologists, optometrists and nutritional scientists
- Manufactured according to the highest quality standards
- Made from the finest quality, most bioavailable ingredients, including pharmaceutical grade components wherever available
- Doctor recommended
- Satisfaction guaranteed

Comprehensive Support for Visual and Full Body Health

OcularProtect is a robust multinutrient designed to support visual and full body health. Its comprehensive formulation is based on the latest research in nutritional science. OcularProtect provides a balanced combination of antioxidants, including vitamins C and E, lipoic acid, flavonoids, 6 mg of FloraGLO® lutein and other key nutrients. OcularProtect is made from premium ingredients that are encapsulated in powder form for maximum bioavailability.

Nutrition and Your Health

Today, more people than ever are supplementing their diets. According to a recent survey, 48% of American adults take dietary supplements on a regular basis (1). When asked why they take supplements, the top two responses given are “to feel better” and “to help prevent chronic diseases” (2). Research shows that people who consume optimal levels of key nutrients have a better chance of maintaining visual and full body health.

While proper supplementation helps to maintain good health, choosing the right supplement can be challenging. OcularProtect is a premium quality nutritional supplement that provides the nutrients your body needs to perform at its best.

OcularProtect Delivers a Powerful Combination of Antioxidants to Protect Cells Against Free Radical Assault

Free radicals are created during the daily process of converting food to energy, by pollutants in the air we breathe and by ultraviolet rays in the light around us. In fact, cumulative photo-oxidative insults are believed to play a role in clouding the lens of the eye and damaging the macula, which is located in the center of the retina.

OcularProtect provides a formidable team of free-radical fighting antioxidants: Vitamins C, E and lipoic acid to neutralize free radicals, as well as copper, zinc and selenium to help enzymes deactivate them. Plant compounds with potent antioxidant properties from grape seeds, bilberry, citrus and *Ginkgo biloba* add strength to the OcularProtect team.

OcularProtect Provides Substantial Amounts of Key Carotenoids That Are Vital to Eye Health

OcularProtect supplies five key carotenoids with potent antioxidant properties: lycopene, alpha and beta carotene, lutein and zeaxanthin. Plentiful in green leafy vegetables, lutein and zeaxanthin are concentrated in the lens and macula of the eye. Along with vitamins A, C and E; lutein and zeaxanthin are among the few nutrients detected

in the lens (3). In the macula, these two yellow pigments work to filter out blue light which is believed to cause photo-oxidative damage (4).

Population health studies suggest that consuming a diet rich in lutein and zeaxanthin may help maintain normal vision as we grow older (4,5,6). OcularProtect makes a significant contribution to your daily intake of lutein and zeaxanthin: the amount found in about two servings of spinach.

Ordering OcularProtect

OcularProtect and other ScienceBased Health products are available for purchase through eye care practitioners, by calling customer service at: **888.433.4726** and online: www.sciencebasedhealth.com.
